SCARF PATTERN:

Cast on 12 sts (or any even number).

All rows: *K1, P1*, repeat pattern between "*"s across the row.

Work until scarf is about 66" long (or longer, if you like).

Bind off. Weave in ends with yarn needle.

Pattern Tips: Ribbed patterns seem like they're going to be wider than you want until you've done several rows. Then the tightening effect of the ribbing starts to make your item narrower.

By working the single-rib pattern in an even number of stitches, you know it will always start with a Knit stitch first.

Yarn Tip: Lion Brand recommends knotting Chenille yarn ends to prevent unraveling.
